How can I set an affiliated link to RS audials product websites?

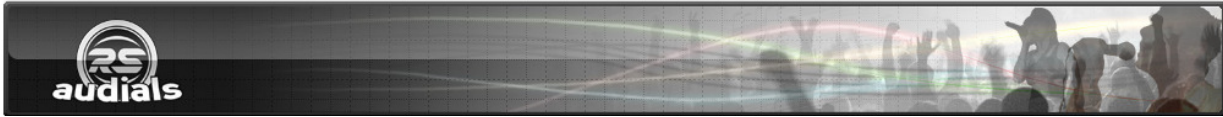

It is important that you link to our product websites in the right way. Thus, you assure that for each sale through our website, you will receive your commission.

Please use these links

- <http://audials.com/?affiliate=<affiliateid>>
- <http://tunebite.com/?affiliate=<affiliateid>>
- <http://radiotracker.com/?affiliate=<affiliateid>>
- <http://videoraptor.com/?affiliate=<affiliateid>>
- <http://tagrunner.com/?affiliate=<affiliateid>>
- <http://scramby.com/?affiliate=<affiliateid>>

depending on which product website you'd like to link to. Assure that for <affiliateid> you use your personal RS audials affiliate ID.

Example: Use the link <http://tunebite.com/?affiliate=123456789> to link to the tunebite website if your affiliate ID is 123456789

How can I provide an affiliated demo version of RS audials products?

Many customers like to try a demo version of RS audials software before they decide to buy it. Out of the demo version, a license can then directly be bought. You can provide a demo version of any of our products directly on your website. Please assure you use the right links, in order to assure that for any sales reached by that demo version you will get your commission.

Please use these links:

- <http://mirror.audials.com/tunebite/download.php?affiliate=<affiliateid>>
- <http://mirror.audials.com/radiotracker/download.php?affiliate=<affiliateid>>
- <http://mirror.audials.com/videoraptor/download.php?affiliate=<affiliateid>>
- <http://mirror.audials.com/tagrunner/download.php?affiliate=<affiliateid>>
- <http://mirror.audials.com/scramby/download.php?affiliate=<affiliateid>>
- <http://mirror.audials.com/audialscomplete/download.php?affiliate=<affiliateid>>

depending on which product you'd like to provide a demo version for. Assure that for <affiliateid> you use your personal RS audials affiliate ID.

Example: Provide the link <http://mirror.audials.com/tunebite/download.php?affiliate=123456789> to allow your visitors to directly download a tunebite demo version, if your affiliate ID is 123456789

Remark:

We strongly recommend that you use the links above, which means that RS audials will host the binaries for download. However, it is possible to copy the files to your web server, and if you assure a specific file name scheme, you will still receive commission. But as we constantly improve our software and frequently release updates, it is not recommended to host the demo version on your web server, as this could lead to old, outdated versions being delivered to the customers. If you still wish to do so, please contact us (see below).

How can I provide an affiliated shop link?

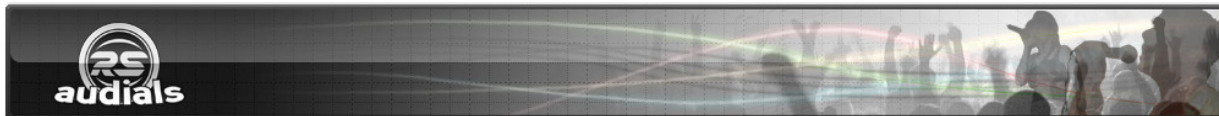

It's also a good idea to provide links on your website which directly will lead into a shop in which the user can buy the product. Set these links in the right manner to assure you will get your commission. Please use these links, depending on which version of the products you'd like to sell:

To link into the Tunebite shop:

- <http://audials.com/ashop/tb/premium/<affiliateid>>
- <http://audials.com/ashop/tb/platinum/<affiliateid>>
- <http://audials.com/ashop/tb/classic/<affiliateid>>

To link into the Radiotracker shop:

- <http://audials.com/ashop/rt/premium/<affiliateid>>
- <http://audials.com/ashop/rt/platinum/<affiliateid>>

To link into the Videoraptor shop:

- <http://audials.com/ashop/vr/<affiliateid>>

To link into the Tagrunner shop:

- <http://audials.com/ashop/tr/<affiliateid>>

To link into the Scramby shop:

- <http://audials.com/ashop/sc/<affiliateid>>

And to link into the audials complete shop to sell the bundle of all products:

- <http://audials.com/ashop/ac/<affiliateid>>

Assure that for <affiliateid> you use your personal RS audials affiliate ID.

Example: Provide the link <http://audials.com/ashop/tb/premium/123456789> to your website visitors to purchase the product “tunebite Premium”, if your affiliate ID is 123456789.

Remark:

Additionally, the “element 5 control panel”, to which you will get access when registering as affiliate, will allow you to create working affiliated links to shops, too.

But we recommend you prefer the links as described here for several reasons:

- Graphically, the shop will look nicer (and will be further improved by us from time to time)
- At some occasions, we will provide an “upselling” or “crossselling” possibility. This will create additional revenues for you, too.
- If we release new major product versions, the links coming from “element 5 control panel” may not work or sell outdated versions, whereas the links like described here will always sell the latest version.
