After you register as an Audials affiliate, you will then have access to the "element 5 control panel". Although you will also be able to create affiliate shop links in this control panel, we do strongly recommend for you to use the links provided above because:

- Graphically, the shop will look nicer (and will be updated by us from time to time)
- Occasionally we provide “up-selling” or “cross-selling” promotions and using the shop links above will allow you to participate in these promotions and create additional affiliate income.
- If we release new and major product versions, the links coming from the “element 5 control panel” may not work properly or sell outdated versions, whereas the links we provide above will always sell the latest versions.

We recommend that you contact us at sales@audials.com with any questions.

Will Audials give me additional marketing resources?

Yes, we will provide you with a lot of marketing resources such as banners, images, flash movies, and other marketing materials you can use to present Audials products on your website.
